About the Experience

At Jungle Paradise , you are in a journey . To discover yourself , to know how humans are supposed to live on Earth, to meet your strengths & weaknesses , to learn how to relax with the rhythm of nature, to unlearn what modern society has taught about us & the nature .

The accommodations we have are humble and close to the environment. However, we have also taken into considerations some of the essentials that humans can't live without.

Enjoy the nature with an open mind,
live the forest life.
